About Us

DCT (Digital Construction Technologies) are a global virtual design and construction consultancy firm. We are talented, industry innovators, striving to deliver the most dynamic and constructible work for our clients, applying this to each and every project.

DCT was established in Ireland in 2018 and specialises in mechanical and electrical digital engineering and digital construction management within all sectors of the construction industry.

DCT has experienced considerable expansion over the past three years with employment growing from 1 to over 40 in that time. Now, with offices in Ireland, Argentina and Croatia, DCT has built up a reputation as the leaders in the virtual design and construction arena in a very short period of time.

What We Offer

After going through a structured onboarding and education process, you'll get to hone your skills through internal and external education and training. You'll continuously work on your progress with your manager, through weekly 1:1s, Project Review meetings, and Internal Training. We're a fast-growing company, which in our case means opportunities for both vertical and horizontal professional growth. We value quality, learning, and development, and hire people whose knowledge and ambition align with our culture of progress.

- A permanent employment contract
- Regular assessment of skills and personal development plan
- Top-notch equipment – welcome package, laptop, two screens, a headset, etc.
- Work from home as needed
- Holiday bonuses
- Team buildings, workshops and education (both internal and with external experts), office parties
- 20 vacation days (+ 2 extra Self Care day)
- 100% paid Multisport card
