## About Us

DCT are a global virtual design and construction consultancy firm. We are talented, industry innovators, striving to deliver the most dynamic and constructible work for our clients, applying this to each and every project.

DCT was established in Ireland in 2018 and specialises in mechanical and electrical digital engineering and digital construction management within all sectors of the construction industry.

DCT has experienced considerable expansion over the past three years with employment growing from 1 to over 30 in that time. Now, with offices in Ireland, UK, Argentina and Croatia, DCT has built up a reputation as the leaders in the virtual design and construction arena in a very short period of time.

 Station Mews,  
Glasnevin, Dublin 9

## Responsibilities

- Development of models and reports in line with company requirements.
  - Manage in-house model control, model productions and drawing schedules, ensuring we are up-to-date with drawing management.
  - Assist in the implementation of 3D, 4D, 5D, 6D tools.
  - Assist in implementation of off-site drawing and model control/storage.
  - Responsible for production of 3D construction models from base information.
  - Ensure continual improvement of integrated management system, looking at new and future technologies.
  - Ensure compliance to Company EHS, QA/QC policies and systems.
  - Deal with sub-contractors, client consultants, and general contractors to ensure correct installation.
  - Operate to health and safety requirements.
  - Clash management on all required projects and systems assigned.
- 

## Required Skills

- Good working knowledge of full CAD/BIM Suite, Revit M&E services. AutoCAD M&E services drawings for new builds as well as refurbishments.
- Ideally previous experience working in an M&E / Engineering environment desirable.
- IT literate with good working knowledge of Microsoft Office, Word, Excel.
